How to Sign in using Auth0

Note: If your password is changed via the Admin screen, then your password is also updated in Auth0.

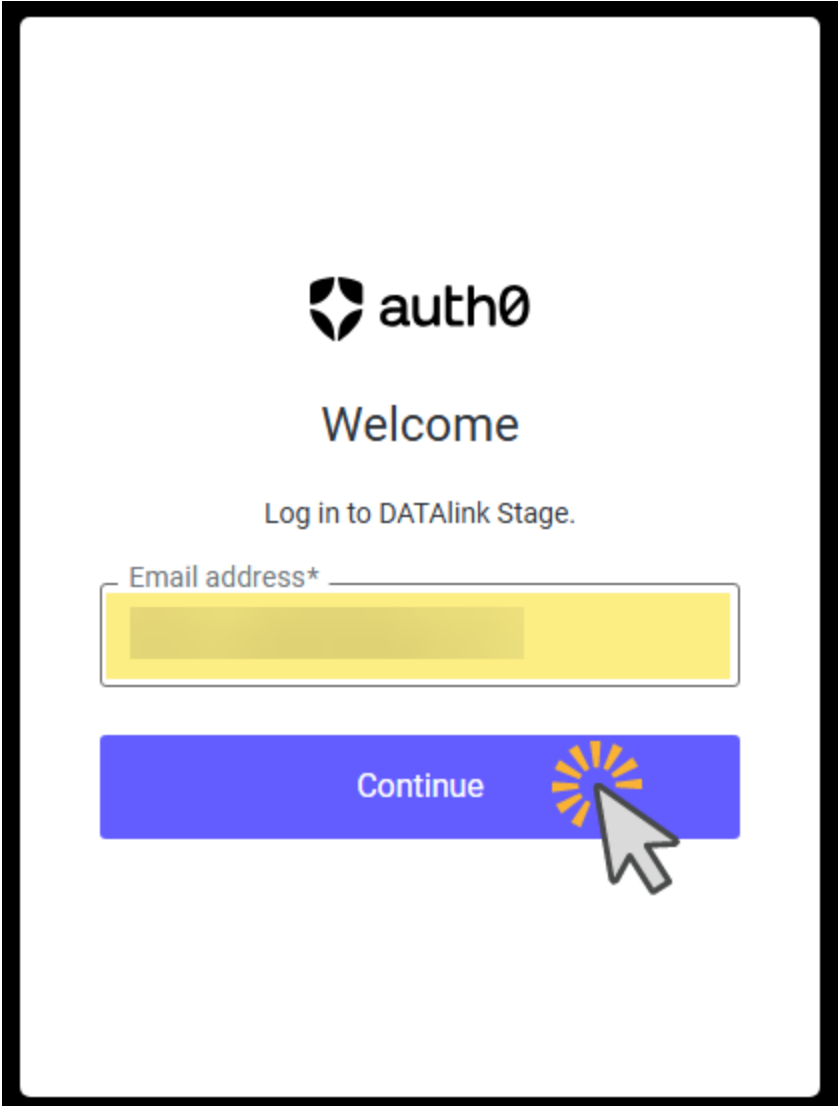

Your current username/password will work until Auth0 is enforced, so use your legacy username/password until you have time to configure Auth0.

1. Click Sign in using auth0

4. Configure 2FA on your device, enter the one-time code and click **Continue**.
Any Authenticator app works (Microsoft Authenticator, Google Authenticator, etc.), we recommend Microsoft Authenticator if you don't have one. The desktop-based authenticator app works for users without a smartphone.

Secure Your Account

Scan the QR Code below using your preferred authenticator app and then enter the provided one-time code below.
